

**Oh, Give Me a School**  
**(sung to the tune of "Home on the Range")**

**Verse 1**

Oh, give me a class  
Where each student can pass  
And we all help each other to learn  
We work and we play  
And we stay friends all day  
'Cause we know that we'll

**Chorus**

Home, this feels like home  
It's a vision of what school can be  
People caring and fair  
Always willing to share  
And we're starting right here you and me

**Verse 2**

Oh, give me a school  
Where to share is the rule  
And no teacher must feel all alone  
Where seldom is heard  
A comparative word  
And where your success adds to my own

**Verse 3**

Oh, give me the earth  
Where each person has worth  
And where all of us know we belong  
We can work as a team  
But it starts with a dream  
And that's why we are singing this song
