

# Thinking Cube

**Describe It**

Examine the subject closely and describe what you see.

**Associate It**

What does the subject make you think of? What does it remind you of?

**Compare and Contrast**

What is similar to it?  
What is different from it?

**Analyze It**

Break the subject into parts. Name the parts.

**Argue For or Against It**

Tell why you think it is good or not good.

**Apply It**

Tell how it is used.
