

## Step 3b: Mediate the Content

**Goal:** To prepare and adapt teaching practices (such as content maps, guiding questions, formative assessments, and graphic organizers) being implemented so that they are tailor-made for a teacher's students' unique needs

**Actions:**

1. Get a copy of the teacher's curriculum materials (textbooks, state and/or school curriculum, state standards, etc.).
2. Look for ways you can speed up coaching by proposing ways the teacher can incorporate a new teaching practice into their teaching routine.
3. Share your list of concepts.
4. Co-construct a lesson plan that integrates the new teaching practices.

**Time:** 5–30 minutes (excluding preliminary activities)
